● ABOUT MYSELF

Passionate Software Engineer with a B.Sc. in Computer Software Engineering and extensive experience in Flutter mobile development. Seeking opportunities to contribute to an expert team and grow professionally.

● WORK EXPERIENCE

09/2023 – CURRENT
FLUTTER DEVELOPER (REMOTE) 14 K BUSINESS SOLUTIONS LLC

- Develop mobile applications using Flutter for both iOS and Android platforms.
- Implement app features and functionalities based on client and project requirements.
- Identify and fix bugs and performance issues to ensure optimal app functionality.
- Prepare and deploy applications to the App Store (iOS) and Google Play Store (Android).
- Manage version control and release cycles.
- Integrate third-party APIs and services to enhance app capabilities.
- Design and implement user interfaces (UI) that provide a smooth and engaging user experience (UX).
- Collaborate with designers to create visually appealing and user-friendly app layouts.
- Work closely with cross-functional teams, including designers, product managers, and backend developers, to deliver high-quality applications.
- Participate in team meetings, provide project updates, and contribute to planning and strategy sessions.
- Use state management techniques and tools like GetX or Provider to manage app state efficiently.
- Ensure app responsiveness and maintainable code architecture.
- Maintain clear and organized project documentation.
- Stay updated with the latest industry trends and advancements in Flutter development.
- Continuously improve development processes and contribute to the adoption of best practices.

10/2023 – CURRENT
FLUTTER DEVELOPER(REMOTE) APPALO INC

- Maintain and update existing mobile applications using Flutter.
- Add new functionalities and features to existing applications.
- Integrate APIs and third-party services to enhance app capabilities.
- Work remotely and manage time effectively to meet project deadlines.
- Continuously engage and collaborate with backend developers to ensure seamless integration and functionality.
- Troubleshoot and resolve any issues or bugs in the applications.
- Ensure the applications are up-to-date with the latest industry standards and trends.
- Participate in regular team meetings and provide updates on project progress.
- Ensure high-quality application performance and user experience.
- Communicate effectively with team members to align on project goals and requirements.

05/2023 – 10/2023 Abbottabad, Pakistan
FLUTTER INTERNSHIP PIXEL IO TECHNOLOGIES

- Developed a mobile application using Flutter as part of an assigned project.
- Learned and implemented state management techniques in Flutter.
- Designed and created complex user interfaces (UI) for the application.
- Integrated APIs to enable app functionalities and data interactions.
- Collaborated with team members and mentors to gain insights and improve development skills.
- Participated in code reviews and received feedback to enhance coding practices.
- Gained hands-on experience in debugging and troubleshooting application issues.
- Enhanced understanding of Flutter development best practices and industry standards.

- Completed a 2-month training program learning from senior Flutter developers.
- Learned how Flutter works and the fundamentals of app development.
- Developed basic apps to understand the basic structure of app development.
- Learned the Dart programming language and gained hands-on experience.
- Participated in coding exercises and projects to reinforce learning.
- Collaborated with senior developers to understand best practices and coding standards.
- Improved problem-solving skills and debugging techniques.
- Gained practical experience in designing and implementing user interfaces.
- Integrated basic APIs to add functionality to applications.
- Participated in team meetings and code reviews to receive feedback and improve skills.

● SKILLS

Technical Skills

Flutter: Proficiency in developing cross-platform applications using Flutter.

Dart: Strong knowledge of the Dart programming language.

State Management: Experience with GetX, Provider, Riverpod, Bloc/Cubit(basic).

API Integration: Ability to integrate RESTful APIs and handle HTTP requests using Dio, and http.

Firebase: Knowledge of Firebase services, including Authentication, Cloud Firestore, Cloud Storage, and Firebase Analytics and Notifications.

UI/UX Design: Experience in creating and implementing user interfaces using Flutter widgets, Figma.

Version Control: Proficiency with Git and platforms like GitHub.

Database Management: Experience with local databases such as SQLite, Hive, and cloud databases like Firestore.

Tools

- **Android Studio**
- **Visual Studio Code**
- **Xcode**
- **Firebase**
- **Postman**
- **Jira**

● EDUCATION AND TRAINING

Mardan, Pakistan

B.S COMPUTER SOFTWARE ENGINEERING University of Engineering & Technology Peshawar

swat, Pakistan

F.SC PRE-ENGINEERING Cadet College Swat

● PROJECTS

05/2023 – 10/2023

Mafi Mushkil (Service Provider App)

- Utilized the Provider package for state management.
- Implemented pixel-by-pixel design for the user interface.
- Integrated Google Maps for location-based features.
- Integrated various APIs for enhanced app functionality.
- Implemented Firebase authentication with phone number verification.
- Configured and integrated push notifications.
- Developed for both Android and iOS platforms.

11/2023 – 04/2024

Al Sham Restaurant Management System

- Employed GetX for state management.
- Designed and implemented a user-friendly interface with custom UI elements.
- Integrated various APIs for real-time data retrieval and interaction.
- Managed local and remote databases for storing restaurant data.

- Implemented secure user authentication and role-based access.
- Integrated inventory management for tracking stock levels and handling product updates.
- Configured push notifications for order updates and important alerts.
- Managed employee information and schedules.
- Implemented finance management features, including expense tracking and financial reporting.
- Developed and deployed the system for both Android and iOS platforms.
